# Industrial Coating

Powder Coating, Industrial Liquid Coating and Resin are our specialized service fields. Our products create colorful and protection on industrial materials with advance technology to achieve the highest level of customer satisfaction. Our paints adopt the global standard for excellent durability under IATF 16949:2016 and ISO9001:2015.

## 1 POWDER COATING

Developed by transforming of liquid paint to powder form. This is an innovation for alternative to users and workstation of our customers. The product is applicable to spray on various surfaces such as automotive parts, aluminum both interior and exterior. We acquire QUALICOAT Switzerland standard, ISO9001 and IATF16949 and guarantee up to 20 years.

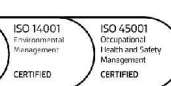

MP	Epoxy+Polyester Powder
EP	Epoxy Powder
PE	Polyester-TGIC Powder
PU	Polyurethane Powder
PS	Polyester -TGIC Durable Powder (Warranty 10 years / 20 years)

## 2 INDUSTRIAL LIQUID COATING

The coating material for mass production of industrial items such as automotive parts, motorcycles, machines, steel structures with ISO9001, ISO14001:2015, ISO45001:2018 and IATF16949 to warranty our quality and standards.

### PRIMER

- Epoxy Ester Modified
- Acrylic Melamine Modified
- Phenolic Alkyd Modified
- Polyester Melamine Modified
- Triple P Primer Acrylic Polyol Modified
- Double A Primer Acrylic Polyol Modified

### TOP COAT

- Polyurethane 2K Modified
- Acrylic Melamine Modified
- Alkyd Melamine Modified
- Acrylic 1K Modified
- Alkyd Enamel Air Dry Type
- Alkyd Nitrocellulose System
- Acrylic Waterborne and Solventborne of Fiber Cement & Concrete Product
- UV Curable Curtain Coating
- Electro Deposit Paint (EDP)

## 3 RESIN

We supply three(3) types of resin to coating and other industries;

- **Polyester** for casting like speed boat, fiberglass, jewelry and dolls
- **Alkyd** for enamel paints, oil paint and coatings
- **Latex** for emulsion paint
